European Gymnastics has great opportunity to showcase that Gymnastics is really for All. One of these opportunities is the Golden Age Gym Festival aimed at people aged 50 & over. And its 8th edition will gather us in the beautiful city of Funchal, Region of Madeira (POR) on October 2-7, 2022.

This is the second time this Festival is held in Portugal, but the first time in the City of Funchal, which has significant cultural and historical value.

The Gymnastics Federation of Portugal is very experienced in hosting Gymnastics events which always distinguish themselves with great conditions, warm and friendly atmosphere.

The Local Organizing Committee (LOC) has already started their preparations which promises a great event ahead. I express my gratitude to the Gymnastics Federation of Portugal, its LOC and the Technical Committee of Gymnastics for All of European Gymnastics for their efficient cooperation. I wish them success in further stages of the preparation.

I am confident that all the work carried out will be appreciated by the participants and the Portuguese spectators who are also great fans of the Gymnastics for All events.

Brilliant performances, the social atmosphere, display of variant cultures, the festive mood and incredible emotions and impressions – these are our expectations for the Gymnastics for All events.

There are few events that give the opportunity to people from all different backgrounds and walks of life, to gather in one place and celebrate their love for our sport, and Gymnastics for All is exactly that! I am both proud and excited for all of us.

1. Welcome Messages (cont.)

Miguel SILVA GOUVEIA - Mayor of Funchal

Funchal, Atlantic capital of Sports and Nature

In 2022, Funchal is proud to host the 8th edition of the Golden Age Gym Festival, the most important European international festival for senior gymnasts.

This will be a defining moment for the city and for our outermost region, and a natural consequence of the work the Municipality has made over the last few years in sports policies, with investment in infrastructure, in partnerships with associations and in the holding of events, many of them on an international level. This is also the result of an unequivocal commitment to the quality of life of citizens and to the promotion of healthy lifestyles.

This commitment by the City Council has allowed, not only to elevate the Municipality's sports policy to unprecedented levels of investment in the History of Funchal, but also to place our city as a reference destination on the world tour of different sports.

Today, Funchal is not only an outstanding Atlantic Capital; is a city with a global reputation in terms of Sports and Nature Tourism, with unique natural conditions to attract people from multiple backgrounds, combined with a logistical capacity to host events and, finally, the emblematic hospitality of our people.

Gonçalo MARQUES - President of Madeira's Gymnastics Association

Dear Participant,
Welcome to Golden Age Gym Festival – Funchal - Madeira 2022!

We are delighted to welcome you to this great gymnastics event. We are already working very hard to offer you the biggest and best experience during your stay in Madeira. The weather in Madeira at this time of year is simply fabulous. Usually, we will have plenty of sunshine to brighten up your performances and warmth to give you a standing ovation on the different stages. Close your eyes... just imagine performing and having the Atlantic Ocean as a background. I don't think anyone would want to miss this opportunity. Everything has been thought through in detail and you will see that nothing has been left to chance... from the moment you arrive at the Cristiano Ronaldo airport until the day you, unfortunately, have to say

goodbye.

Just an introduction to the wonderful island... Madeira is a garden in a harmonious mix of flowers and trees. We are part of the Laurissilva Forest which is a type of humid forest, from Macaronesia. This region is formed by the archipelagos of Madeira and Azores, both Portuguese regions, by the Canary Islands and Cape Verde. But make no mistake... it's not all trees and flowers. We have a plethora of activities and experiences waiting for you, as Madeira has been the best island destination in the world for six consecutive years (World Travel Awards).

We look forward to seeing you!

Best regards.

2. Welcome to FUNCHAL / MADEIRA

MADEIRA – PORTUGAL

The island of Madeira was discovered by Tristão Vaz Teixeira, Bartolomeu Perestrelo and João Gonçalves Zarco, three Portuguese explorers, in 1419, which dubbed the island 'Madeira' ("wood" in English) due to the abundance of this raw material.

Noticing the potential of the islands, as well as its strategic importance, the colonization of the islands began in 1425.

At the beginning of its settlement, some agricultural crops, such as cane sugar, were introduced, which quickly afforded the Funchal metropolis frank economic prosperity. This meant that, in the second half of the fifteenth century, the city of Funchal became a mandatory port of call for European trade routes.

The seventeenth and eighteenth centuries were marked by the emergence of a new culture that would boost the Madeira economy again: wine.

Throughout the nineteenth and twentieth centuries, Madeira flourished for the birth of the tourism sector, quickly becoming a mandatory reference for the European aristocracy that has set temporary residence here, attracted by the natural therapeutic qualities of the island.

BEST ISLAND DESTINATION IN EUROPE

Madeira was elected "World's Leading Island Destination" in 2013, 2014, 2016, 2017, 2022, 2019 and 2020 by the World Travel Awards.

The World Travel Awards, also known as the "Oscars of Tourism", were created in 1993 and are held once a year. They aim to "recognise, reward and celebrate excellence in all sectors of the tourism industry" globally, as well as, to recognise this sector best practices.

In addition to electing the best European hotels, every year, the World Travel Awards (WTA) organisation also names the best hotels in each country, awarding Madeira hotels in a wide range of categories and thus recognising the quality of the hotel facilities and excellent service available in the region.

FUNCHAL

The name of the city of Funchal derives from the plant "Foeniculum Vulgare", the fennel plant. Reports of the time indicate that when we landed on the island, the first sight was of a dense valley in trees and fennel, an essential plant in gastronomy and regional sweets.

Despite the abundance of fennel, it was the sugar that provided the formation of a sustainable economy in the city of Funchal and throughout the island. Madeira wine succeeded sugar, becoming today one of the region's ex-libris. The production of sugar and vines in the city of Funchal become indispensable for the local economy, and its icons are incorporated into the city's coat of arms.

The city of Funchal has become a key point of commerce in the center of the Atlantic, allowing for commercial exchanges, culture and experiences. From this port in the Atlantic, exports of regional products are made to the world, products that are still appreciated today.

Funchal is unique for its diversity, from the sea to the mountains, from fruits to flowers and embroidery to basket carts, all influenced by its tropical climate, which allows for unparalleled productions and activities.

INFO MEETING

Despite the current adversities that prevent us from organizing events and meetings in a safe way, the situation is finally on the way to a solution, and so it is expected that in the end of the next summer, it will be possible to travel within Europe respecting safety measures, for small events.

It is based on these predictions that the Organizing Committee will organize the Information meeting of the 8th Golden Age Gym Festival 2022, in the city of Funchal.

Rabaçal - 25 Fontes

Duration: approximately 3 hours - 10km
Medium difficulty, it is recommended for people with some experience. In this levada the journey is often narrow and muddy. Comfortable shoes are mandatory.

We go west and make a brief stop to visit the highest cliff in Europe: Cabo Girão, with 580m of altitude and where we can say that the land "falls" vertically to the sea. The journey continues along the coast to the city of Ribeira Brava. After passing through several tunnels, we arrived at Ponta do Sol. The forests disappear and we continue to find Paúl da Serra (1,500m). For approximately 30 minutes, we walked to the house in the Rabaçal forest, the starting point of the trip. During this short trip, we enjoy one of the most spectacular panoramic views of Madeira: the gorges of Rabaçal, the fantastic waterfalls and the rugged south coast. Above, in Ribeira da Janela, the levada flows into a lagoon called Risco. It is necessary to bring a flashlight, because we will have to go through a tunnel.

The levada passes through one of the most remote areas of the island. After an hour on the way, the first tunnel will be reached. After that tunnel, three more follow. The highest point of this walk is 300m high from the waterfalls and lagoons (Caldeirão Verde).
